Employments

Maxitech AB

UX/UI Designer & Tester

apr 2024 - present

At Maxitech I'm working as a consultant.
Maxitech manages me, my fees and clients.
I'm currently working at: Sectra - Enterprise mobile security

B3 Commit

UX/UI Designer & Tester

dec 2021 - apr 2024

During my time at B3 Commit I worked in a project for a multinational mining company named Epiroc.

We built a large platform that ranged from users in their workshops, HR department and all the way to their customers and the people working in the mines. In this project I was responsible for the UX & UI design of various areas and for the testing and quality output in my team.

Nethouse

UX/UI Designer & Tester

oct 2016 - dec 2021

This is where it all started, my first job as a tester and UX/UI designer.

I started working at Nethouse as a junior software tester after spending 3 months there doing my internship. I quickly started taking an interest in the user experience and interfaces of our products.

Since I have a background in design it was natural to me and I spent time both at work and on my private time to learn and study the field of UX/UI design. At Nethouse I was given the time and opportunity to work with both and combine my skills in the projects that we worked in.

Some of my clients while working at Nethouse:
Securitas, Avarn, Bufab, Nobeli, Kopparbergs, Jula, Transportstyrelsen, Kommuninvest, Elon.

J.Vigersten Creative

Photographer & Video Creator

jul 2014 - jul 2021

For about seven years I ran my own side business which consisted of photography and video creation. I photographed profile pictures for businesses, environments and interiors. I also filmed and edited videos for use on websites, conferences and social media.

PostNord

Manager & Terminal worker

nov 2010 - oct 2016

PostNord was my first job after graduating.
I spent 6 years at the company in various roles, starting out as terminal worker and moving up the
ladder to production managers with responsibilities of employees, hiring and managing the daily
production.
